

BUILT TOUGH FOR AUSTRALIAN CONDITIONS

RECOVERY KIT UTV/SXS/ATV

When you're out on the tracks, the last thing you want is to be caught unprepared. That's why our **UTV Off-Road Recovery Kit** has been designed and tested right here in Australia, meeting the toughest requirements our country can throw at it.

Manufactured from the world leaders in synthetic fibres, this kit delivers reliability, strength, and peace of mind when you need it most.

Each bag comes equipped with unique built-in tie-down straps, designed to securely fasten it to your vehicle's cargo bay or carrying rack

WHAT'S
INSIDE

Kit Includes:

- 1x Kinetic Recovery Rope – 6,300kg (14,000lbs)
